1. NATURE OF OPERATIONS

Lion One Metals Limited ("Lion One" or the "Company") was incorporated on November 12, 1996 under the laws of the Province of British Columbia, Canada. The Company is in the business of mineral exploration and evaluation and is currently focused on the development of mineral resources in Fiji. The Company is listed for trading on the TSX Venture Exchange ("TSX-V") under the symbol LIO and on the Australian Securities Exchange ("ASX") under the symbol LLO. The Company's head office and principal address is 306 - 267 West Esplanade, North Vancouver, BC, Canada, V7M 1A5. The address of the Company's registered and records office is Suite 1700 – 1055 West Hastings Street, Vancouver, BC, V6E 2E9.

The Company's condensed interim consolidated financial statements are presented in Canadian dollars.

These condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS") with the assumption that the Company will be able to realize its assets and discharge its liabilities in the normal course of business rather than through a process of forced liquidation. The Company has incurred losses from inception and has not advanced its properties to commercial production. The Company estimates that it has adequate financial resources for the next twelve months with working capital of $22,794,082. The Company's continuation as a going concern is dependent upon the successful results from its exploration activities and its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations.

The condensed interim consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. Continued operations of the Company are dependent on the Company's ability to receive financial support, obtain necessary financings, and/or generate profitable operations in the future.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed interim consolidated financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IASB"). As such, these interim financial statements do not contain all the disclosures required by IFRS for annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements for the years ended June 30, 2024 and 2023 ("annual consolidated financial statements").

The condensed interim consolidated financial statements have been prepared on a historical cost basis except for certain financial assets measured at fair value. All dollar amounts presented are in Canadian dollars unless otherwise specified.

These condensed interim consolidated financial statements incorporate the financial statements of the Company and its wholly controlled subsidiaries. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The condensed interim consolidated financial statements include the accounts of the Company and its direct wholly-owned subsidiaries. All significant intercompany transactions and balances have been eliminated.

2. BASIS OF PREPARATION (cont'd…)

Basis of Consolidation and Presentation

Use of Estimates

The preparation of these condensed interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Judgments

The functional currency of each of the subsidiaries and the Company were assessed to determine the economic substance of the currency in which each entity performed its operations. The functional currency of the Company is the Canadian dollar. The functional currencies of the Company's subsidiaries have been assessed as follows:

	Country of Incorporation	Effective Interest	Functional currency
American Eagle Resources Inc.	Canada	100%	Canadian Dollar
Laimes International Inc.	BVI	100%	Canadian Dollar
Auksas Inc.	BVI	100%	Canadian Dollar
Lion One Pte Limited	Fiji	100%	Fijian Dollar
Lion One Australia Pty Ltd.	Australia	100%	Australian Dollar
Piche Resources Pty Ltd.	Australia	100%	Australian Dollar

These condensed interim consolidated financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. If the going concern assumptions were not appropriate for these condensed interim consolidated financial statements, then adjustments would be necessary in the carrying value of assets and liabilities, the reported expenses and the condensed interim consolidated statements of financial position.

Estimates

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, are as follows:

The carrying value and recoverability of exploration and evaluation assets and mineral property, plant and equipment requires management to make certain estimates, judgments and assumptions about its project. Management considers the economics of the project, including the latest resource prices and the long-term forecasts, and the overall economic viability of the project.

The determination of income tax is inherently complex and requires making certain estimates and assumptions about future events. While income tax filings are subject to audits and reassessments, the Company has adequately provided for all income tax obligations. However, changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in the Company's provision for income taxes.

Share-based payments are subject to estimation of the value of the award at the date of grant using pricing models such as the Black-Scholes option valuation model. The option valuation model requires the input of highly subjective assumptions including the expected share price volatility. Where such valuations are applied, such as the time of a stock option grant or issuance of shares from trust, management provides detailed valuation assumptions.

Stockpiled mineralized materials, work-in-process inventory, and finished goods are measured at the lower of weighted average cost or net realizable value ("NRV"). The assumptions used in the valuation of work-in process inventory include estimates of the amount of gold and silver in the mill circuits and assumptions of the gold and silver prices expected to be realized when the metals are recovered. If these estimates or assumptions prove to be inaccurate, the Company could be required to write-down the recorded value of its work-in-process inventory, which would reduce the Company's earnings. The Company allocates mining costs between capital mine development activities and operating activities on a monthly basis, by using capital and operating meters advanced and ore tonnes and waste tonnes mined ore as a basis to allocate.

3. MATERIAL ACCOUNTING POLICIES

The accounting policies and methods of computation applied by the Company in these condensed interim consolidated financial statements are the same as those applied in the Company's annual financial statements for the year ended June 30, 2024.

New accounting standards issued

Amendments to IAS 1, Presentation of Financial Statements
In January 2020, the International Accounting Standards Board ("IASB") issued "*Classification of Liabilities as Current or Non-current (Amendments to IAS 1)"*. The amendments clarify that the classification of liabilities as current or non-current should be based on rights that exist at the end of the reporting period. The amendments also clarify the definition of a settlement and provide situations that would be considered as a settlement of a liability. In October 2022, the IASB issued "*Non-current Liabilities with Covenants (Amendments to IAS 1)"*. These further amendments clarify how to address the effects on classification and disclosure of covenants that an entity is required to comply with on or before the reporting date and covenants that an entity must comply with only after the reporting date. The amendments are effective for reporting periods beginning on or after January 1, 2024. The Company has determined that there is no material impact on the condensed interim consolidated financial statements.

New accounting standards issued but not yet effective

IFRS 18 Presentation and Disclosure in Financial Statements
IFRS 18 Presentation and Disclosure in Financial Statements, which will replace IAS 1, Presentation of Financial Statements aims to improve how companies communicate in their financial statements, with a focus on information about financial performance in the statement of profit or loss, in particular additional defined subtotals, disclosures about management-defined performance measures and new principles for aggregation and disaggregation of information. IFRS 18 is accompanied by limited amendments to the requirements in IAS 7 Statement of Cash Flows. IFRS 18 is effective from January 1, 2027. Companies are permitted to apply IFRS 18 before that date. The Company is in the process of assessing if the new accounting standards will have a significant effect on the Company's consolidated financial statements.The Company will defer implementation until the effective date.

4. RESTRICTED CASH

The proceeds from the Tranche 3 financing facility drawn down in December 2024 are classified as restricted cash as the funds may only be used for interest payments on the Loan Facility (Note 7).

5. MINERAL PROPERTY, PLANT AND EQUIPMENT (cont'd…)

Tuvatu Gold Project

The Company's primary asset is the Tuvatu Gold Project located near Nadi on the island of Viti Levu, Fiji.

In January 2015, the Mineral Resources Department ("MRD") of Fiji granted Special Mining Lease 62 ("SML 62") on the Tuvatu project to the Company. SML 62 is a designated area within the original boundaries of the Company's Special Prospecting Licenses ("SPL's") 1283 and 1296. SML 62 provides exclusive rights for the potential development, construction, and operation of mining, processing, and waste management infrastructure at Tuvatu. The terms of the mining lease provide for certain performance and reporting requirements. The SML has been granted for a term of ten years provided the Company complies with the terms of the lease. Extensions to the term can be applied subject to the terms of the lease and the Mining Act. In August 2022, SML 62 was extended for an additional 10 year term renewable to February 28, 2035. A performance and environmental bond of FJD$2,634,795 ($1,624,193) (June 30, 2024 - FJD $2,634,795 ($1,559,210) has been placed on deposit with the MRD. The SML is subject to annual lease payments of FJD$73,697 ($45,430).

The Fiji properties are subject to a perpetual production royalty of 0.5% to 1.5% of net smelter returns. This NSR is payable to Laimes Global Inc., a company controlled by Walter Berukoff, director of the Company. In addition, SML 62 is subject to a step royalty payable to the government of Fiji starting at 0% in 2023, 0.5% in 2024, 1.1% in 2025, 2% in 2026, 3% in 2027 and 5% then onwards.

Surface Lease Agreement

The Company holds a 21-year Surface Lease agreement with the iTaueki Land Trust Board ("TLTB") which governs the native land ownership rights in Fiji. The TLTB manages the lease agreements between native land owners and tenants. Under the terms of the Surface Lease, the Company must make a one-time payment of FJD$1,000,000 of which FJD$700,000 ($431,508) was paid upon acceptance of the Surface Lease agreement. In March 2019, the Company paid FJD$249,497 ($153,800) to the TLTB with FJD$50,503 ($31,132) remaining is due upon the first gold production from mining operations in Tuvatu. An additional lease payment of FJD$30,000 ($18,493) is payable per annum to the local communities for education and community development over the 21-year term of the Surface Lease agreement.

The application of the Company's accounting policy for mineral property development costs required judgement to determine when the Tuvatu Project Project's technical feasibility and commercial viability had been demonstrated. The Company considered the approval of the Company's Board of Directors to start the detailed engineering, procurement, and construction of the 500 tonne per day Tuvatu Project process plant, along with the substantial amount of work that had been completed on the 300 tonne per day pilot plant to date, and concluded that the technical feasibility and commercial viability had been achieved. Accordingly, effective September 30, 2023, the Company reclassified capitalized costs from exploration and evaluation assets to mineral property and tested for impairment.

Fiji Exploration Properties

The Company holds four exploration licenses (SPL's) for the Tuvatu properties as granted by the MRD. Under the terms of the SPL's, the Company is required to spend a minimum threshold of expenditures on each of the licenses.

7. LONG TERM DEBT

Financing Facility

On January 19, 2023 the Company entered into a facility agreement with Nebari Gold Fund 1, LP, Nebari Natural Resources Credit Fund I, LP and Nebari Natural Resources Credit Fund II, LP (collectively, "Nebari"), with Nebari Collateral Agent, LLC as collateral agent and certain Lion One subsidiaries as guarantors, for a financing facility of up to US$37,000,000 (the "Financing Facility"). The Financing Facility consists of a US$35,000,000 senior secured first lien term loan (the "Loan Facility") and a US$2,000,000 ($2,687,800) equity investment ("the Equity Investment") in common shares of the Company.

The total amount of the Loan Facility was funded in three tranches, with the US$23,000,000 funded on February 9, 2023 (“Tranche 1”), US$6,000,000 funded on December 29, 2023 and US$2,000,000 funded on January 3, 2024 (“Tranche 2”) net of 2% closing fee, US$4,000,000 funded on December 2, 2024 (“Tranche 3”) net of 2% closing fee. Tranche 1 was subject to interest of 8% plus the three-month secured overnight financing rate, as administered by Federal Reserve Bank of New York (“SOFR”), with no scheduled principal repayments until maturity on August 8, 2026. Tranche 2 was subject to an 8% Original Issue Discount (“OID”) and interest is 10% plus SOFR, with progressive amortization over 42 months from the funding date. Tranche 2 principal repayments are to be made in seven equal installments starting on December 31, 2025 to June 30, 2027. Tranche 3 was subject to an 8% OID and interest is 10% plus SOFR, with progressive amortization over 6 months from June 30, 2025. Tranche 3 principal repayments are in three equal installments starting on June 30, 2025, September 30, 2025 and December 31, 2025. As at October 2024, in Nebari’s opinion under the market dispuption terms in the loan agreement, the Term SOFR rate does not accurately reflect the cost of funding the Loan, and 4.61% which was the SOFR rate as at September 30, 2024 better reflects the cost of funding and will be used to calculate the interest rate from October 1, 2024 to June 30, 2025.

On February 9, 2023, the Company received total proceeds of US$25,000,000 from its Financing Facility, which was comprised of US$23,000,000 ($30,452,000) from Tranche 1 and completion of the US$2,000,000 ($2,687,800) Equity Investment, with Nebari purchasing 3,125,348 common shares of the Company at a price of $0.86 per share. The Tranche 1 interest accrued from February 9, 2023 to June 30, 2024 was capitalized and added to the principal amount outstanding of the Loan Facility.

The Company received US$7,840,000 net of 2% closing fee for Tranche 2 which was comprised of US$6,000,000 ($7,935,600) received on December 29, 2023 and US$2,000,000 ($2,671,200) received on January 3, 2024. The Company recorded an OID fee of $944,000 to the principal. The interest with respect to Tranche 2 was be expensed and added to the principal amount outstanding of the Loan Facility from December 29, 2023 to September 30, 2024, with monthly interest payments beginning on September 30, 2024.

The Company received US$4,000,000 ($5,622,400) net of 2% closing fee from Tranche 3. The Company recorded an OID fee of $488,904 to the principal. The interest with respect to Tranche 3 will be expensed and with monthly interest payments beginning on December 31, 2024. The Company issued 3,920,000 common shares of the Company to Nebari. These common shares were valued at $980,000 and netted with the proceeds from Tranche 3 as debt issue costs.

In September 2024, the Company entered into agreement to defer interest payments related to Tranche 1 and 2, due on September 30, 2024 to November 22, 2024. During the nine month period ending March 31, 2025, the Company paid interest payments of $5,416,901 (March 31, 2024 - $nil) to Nebari for Tranche 1, 2 and 3. As at March 31, 2025, interest accrued was $5,072,187 (June 30, 2024- $4,829,092).

7. LONG TERM DEBT (cont'd…)

Following the first month in which the Tuvatu Project produces at least 2,000 ounces of gold, the Company shall pay to Nebari a royalty equal to 0.5% of the net smelter returns on the first 400,000 ounces (equivalent to 2,000 ounces) of gold produced and sold from the Tuvatu Project.

Debt Issue Costs

As part of the Tranche 1 loan facility with Nebari, the Company issued 15,333,087 warrants ("Tranche 1 Warrants") of the Company to Nebari, exercisable into common shares of the Company at a price of $1.49 for a period of 42 months from issuance (Note 16 (d)).

The Tranche 1 Warrants were valued at $5,194,865 using the Black-Scholes option pricing model using the following assumptions: risk free interest rate 2.99%, expected life of 3.5 years, annualized volatility 75% and dividend rate at nil. The Company also incurred deferred debt costs for professional and legal fees of $850,804. Of the total debt issue costs incurred, the Company recorded $559,100 as transaction costs which are netted against Tranche 1 with the debt and amortized over the term of the Loan Facility on an effective interest basis, and $194,469 was recorded to as transaction costs for Tranche 2, recognized during the year ended June 30, 2024. The remainder of $97,235 was recorded as transaction costs for Tranche 3, recognized during the period ended March 31, 2025. All transaction costs are netted with the proceeds and amortized over the term of each respective Transche on an effective interest rate basis.

As part of Tranche 2, the Company amended the facility agreement to re-price the 15,333,087 Tranche 1 Warrants issued from CAD $1.49 to CAD$1.15 with expiry date extended from August 9, 2026 to February 9, 2027. The Company also incurred deferred debt cost for professional and legal fees of $186,132, a closing fee of $213,696 and an OID fee of $944,000.

As part of Tranche 3, the Company issued 3,920,000 common shares of the Company to Nebari, the common shares were valued at $980,000. The Company also incurred deferred debt cost for professional and legal fees of $577,379, a closing fee of $112,448 and an OID fee of $488,904. The Company recognized $259,926 debt modification gain.

During the period ended March 31, 2025, the Company recorded $2,765,091 (June 30, 2024 - $843,862) of accretion and $5,416,901 (June 30, 2024 - $4,060,549) to interest and finance expenses. Of this amount accrued interest of $Nil (June 30, 2024 - $1,512,938) and $Nil (June 30, 2024 - $51,765) of accretion was capitalized to mineral property, plant and equipment (Note 5).

All debts under the Loan Facility are guaranteed by the Company and its subsidiaries: American Eagle Resources, Inc., Laimes International Inc., Auksas Inc., and Lion One Pte Limited, and secured by the assets of the Company and pledges of the securities of the aforementioned Company's subsidiaries. The Loan Facility includes certain covenants that are calculated on last day of each calendar month. As at March 31, 2025, the Company was in compliance with all covenants.

19. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Financial instruments

Cash, short term investments, receivables, deposits, accounts payable and accrued liabilities, lease liability, Loan Facility and accrued interest are carried at amortized cost. The Company considers the carrying amount of the current financial assets and liabilities measured at amortized cost to approximate their fair value due to the short-term nature of the financial instruments. The fair value of long-term liabilities are initially recorded at fair value and subsequently carried at amortized cost using rates comparable to market interest rates.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Financial risk factors

Credit risk

Credit risk is the risk of potential loss to the Company if the counterparty to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its liquid financial assets including cash, cash equivalents, short-term investments and receivables. The Company limits exposure to credit risk on liquid financial assets through maintaining its cash, cash equivalents, short-term investments with high-credit quality financial institutions.

Receivables mainly consist of Goods and Services Tax ("GST") receivable from the Government of Canada, GST receivable from the Government of Australia, and Value Added Tax ("VAT") receivable from the Government of Fiji. The Company has not had issues with respect to collectability of these amounts and believes that the credit risk concentration with respect to receivables is minimal.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its obligations associated with its financial liabilities. The Company will raise funds for future use from equity financings and other methods as contemplated by management to satisfy its capital requirements and will continue to depend heavily upon these financing activities. All of the Company's current financial liabilities have contractual maturities of 30 days or due on demand and are subject to normal trade terms. As at March 31, 2025, the Company had a working capital of $22,794,082.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. The Company does not have a practice of trading derivatives.

a) Interest rate risk

The Company has cash balances, investment-grade short-term deposit certificates issued by its banking institution and long-term debt under the loan facility. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. Advances under the loan facility will bear interest at the 3 month SOFR +8% for Tranche 1 and +10% for Tranche 2/3. The Company manages this risk by monitoring fluctuations in SOFR and in the event 3-month SOFR is in excess of 5%, the Company has the option to pay that portion of the interest attributable to Term SOFR that exceeds 5% by issuing shares of the Company subject to the approval of the TSX-V.

b) Foreign currency risk

The Company's revenue is generated in US dollars and has Fijian mine operations expenditures that are conducted in Fijian dollars, US dollars, Canadian dollars and Australian dollars. A portion of the Company's financial assets (liabilities) and other assets are denominated in US dollars and Australian dollars. As such, the Company is exposed to foreign currency risk in fluctuations. The Company manages this risk by entering into short term forward exchange contracts with durations of one to two months on a intermittent basis to minimize foreign exchange fluctuations.

19. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd…)

Financial risk factors (cont'd…)

As at March 31, 2025, the Company's net foreign denominated financial assets (liabilities) are as follows:

	Foreign currency	Canadian dollar equivalent
Australian Dollar	(72,516)	(65,054)
Fijian Dollar	9,051,703	5,579,832
USD Dollar	(36,498,209)	(52,469,821)

The sensitivity of the Company's comprehensive loss due to changes in the carrying values of monetary assets and liabilities denominated in foreign currencies is as follows:

Increase / decrease in foreign exchange rate	March 31, 2025	June 30, 2024
+ 5%	$ 2,352,829	$ 2,072,231
- 5%	(2,352,829)	(2,072,231)

c) Price risk

The Company is exposed to price risk with respect to commodity and equity prices. The Company closely monitors commodity prices to determine the appropriate strategic action to be taken by the Company. The Company manages this risk by entering into short term gold forward contracts with durations of one to two months on a intermittent basis to minimize gold price fluctuations.

20. CAPITAL MANAGEMENT

The Company's capital management policy has the objective of maintaining a strong, but flexible capital structure that optimizes the cost of capital, creditor and market confidence while sustaining the future development of the business.

The Company manages its capital structure and makes adjustments to it in the light of changes in economic conditions. The Company's capital structure includes shareholders' equity of $186,183,252 (June 30, 2024 - $165,225,554). In order to maintain or adjust the capital structure, the Company may from time-to-time issue shares, seek debt financing and adjust its capital spending to manage current and working capital requirements. There were no changes to the Company's approach to capital management during the period ended March 31, 2025.
